

1st International Symposium on Mapping Asia Plants

Agenda

Date: 25-26th September, 2018

Venue: Lecture Hall, Ginkgo Building,
Institute of Botany, Chinese Academy of Sciences

9 月 25 日		
08:00-09:00	Registration	
09:00-09:10	Opening Ceremony	Chaired by Prof. Keping Ma
Plenary speeches Chaired by Prof. Keping Ma		
09:10-09:45	Mapping Asia Plants: progress and outlook	Keping Ma (Institute of Botany, Chinese Academy of Sciences)
09:45-10:20	Mapping biodiversity patterns across Southeast Asia	Alice C. Hughes (Xishuangbanna Tropical Botanical Garden, Chinese Academy of Sciences)
10:20-10:40	Break and group photo	
10:40-11:15	Data cleaning process in historical collections - Old labels give clue for new science. Case of the Korean peninsula and Northeastern China	Chin Sung Chang (Seoul National University, Republic of Korea)
11:15-11:50	Facing the Anthropocene challenge: challenges and opportunities of species and vegetation databases in addressing ecological problems in a non-analogue future	Alejandro Ordonez (Aarhus University, Denmark)
11:50-13:30	Lunch	
Preliminary Topics		
Progress of plant diversity research in Middle and West Asia Chaired by Haining Qin		
13:30-13:55	Progress on mapping plants in Middle Asia	Wenjun Li (Xinjiang Institute of Ecology and Geography, Chinese Academy of Sciences)
13:55-14:20	Progress on mapping plants in West Asia	Xuehong Xu (Biodiversity Committee, Chinese Academy of Sciences)
14:20-14:35	Mapping Plant Species in Farasan Islands, Saudi Arabia	Filimban, Faten Zubair B (King Abdulaziz University)
14:35-14:50	Plant diversity pattern in Central Asia	Zhiheng Wang (Peking University)
14:50-15:05	Habitat and species biodiversity of Georgia	Izolda Matchutadze (Batumi Shota Rustaveli State University)

15:05-15:20	Break	
Progress of plant diversity research in Northeast Asia Chaired by Zhiheng Wang		
15:20-15:45	Progress on mapping plants in Northeast Asia	Hongfeng Wang (Institute of Botany, Chinese Academy of Sciences)
15:45-16:00	Seed plant features, distribution patterns, diversity hotspots, and conservation gaps in Xinjiang, China	Jihong Huang (Chinese Academy of Forestry)
16:00-16:15	Cataloguing of Plant Diversity in Jiangxi Province, an enhancement of Catalogue of Life China	Yifei Xie (Gannan Normal University)
16:15-16:30	Species diversity and classification system of marine in China seas	Jun Sun (Tianjin University of Science and Technology)
16:30-16:45	Taxonomy and Phylogeny of <i>Porphyra</i> sensu lato (Bangiales, Rhodophyta): from One Genus to multiple	Li-En Yang (Jiangsu Marine Fisheries Research Institute)
16:45-17:00	Morphology, ultrastructure and molecular phylogeny of <i>Wangodinium sinense</i> gen. et sp. nov. (Gymnodiniales, Dinophyceae) and revisiting of <i>Gymnodinium dorsalisulcum</i> and <i>Gymnodinium impudicum</i>	Haifeng Gu (Third Institute of Oceanography)
17:00-17:15	The species diversity of macro-algae from China Sea	Lanping Ding (Tianjin Normal University)
17:30	Dinner	
9 月 26 日		
Progress of plant diversity research in North Asia Chaired by Xingjun Tian		
09:00-09:25	Progress on mapping plants in North Asia	Yi Liu & Jianhua Xue (Institute of Botany, Chinese Academy of Sciences)
09:25-09:40	Progress in compiling backbone taxonomy for vascular plants of Asian part of Russia	Victor Chepinoga (V.B. Sochava Institute of Geography SB RAS, Irkutsk)
09:40-10:05	Mapping of plant distribution at different scale: from Khamar-Daban Ridge to Baikal Siberia	Victor Chepinoga (V.B. Sochava Institute of Geography SB RAS, Irkutsk)
10:05-10:20	Mapping plants in the Khabarovsk Territory: results and prospects	Mariia Kryukova (Institute of Water and Ecology Problems, Far Eastern Branch, Russian Academy of Science)
10:20-10:35	Vascular plants of the Jewish Autonomous region (Far East of Russia): features of the flora and mapping of rare species	Tamara Rubtsova (Institute for Complex Analysis of Regional Problems Far Eastern Branch Russian Academy of Sciences)

10:35-10:50	Break	
Progress of plant diversity research in Southeast and South Asia Chaired by Alice C. Hughes		
10:50-11:05	Progress on mapping plants in Southeast Asia	Bo Liu (Institute of Botany, Chinese Academy of Sciences)
11:05-11:30	Progress on mapping plants in South Asia	Qinwen Lin (Institute of Botany, Chinese Academy of Sciences)
11:30-11:45	Floral diversity mapping (Herbarium ISL) and current prospects in Pakistan- South Asia	Ahmad Mushtaq (Quaid-i-Azam University)
11:45-12:00	Forest biodiversity and livelihood status of the high altitude (Mustang), Mid mountain (Gorkha and Kaski) and Low land (Chitwan), Nepal	Santosh Rayamajhi (Tribhuvan University)
12:00-12:15	Plant biodiversity of the Suribao Watershed, Samar Island, Philippines	William Salem Gruezo (University of the Philippines Los Banos)
12:15-12:30	Closing Remarks	
12:30-14:00	Lunch	
14:00-15:00	Visiting Herbarium in Institute of Botany, Chinese Academy of Sciences Guided by Yingting Chen	
15:00-17:00	Visiting Beijing Botanical Garden Guided tour by Bo Liu
